(*) This figure does not include the capital share held by six shareholders represented on the Board of Directors, eight of whose members are classified as non independent external Directors. At 31 December 2010, the stake held by these shareholders was 24.384%.

Based on the above, the total share capital represented by the Board of Directors at 31 December 2010 stood at 24.389%.

Complete the following tables on company share options held by Directors:

Executive Directors are beneficiaries of a medium-term variable remuneration scheme, to be implemented for members of the management team and which was approved at the Ordinary General Shareholders' Meeting held on 30 April 2008 and notified to the CNMV as a significant event that same day.

This scheme, which will remain in force throughout 2008, 2009 and 2010 and, if any, have been payable during the first quarter of 2011, will provide beneficiaries with a variable cash remuneration or, if the Company so decides, delivery of BME shares.

Obtainment of the incentive depended on achieving a 30% increase in the Total Shareholder Return (TSR) for the complete period of three years that the Scheme in force.

In this case, the amount of the incentive payable to each of the beneficiaries will depend on a reference incentive equal to the average annual variable remuneration of the beneficiary for years 2008, 2009 and 2010, multiplied by 2.5.

In accordance with the powers delegated by the Ordinary General Shareholders' Meeting, at its meeting on 2 July 2008 the Appointments and Remuneration Committee agreed that the medium-term Remuneration Plan would be made effective in the form of delivery of BME shares. Therefore the maximum number of BME shares to be delivered to the beneficiaries of the remuneration scheme will be the result of dividing the amount of the incentive payable to the beneficiaries by the final value of the BME shares. Therefore, taking as a reference the share price at close of market on 20 March 2008, the maximum number of BME shares that could be delivered to the beneficiaries will be 60,246 shares, representing 0.07% of the share capital.

In order to make this scheme effective in the medium term should all the conditions of the same be met, the Board of Directors decided to acquire the maximum number of shares that could be delivered to all beneficiaries of the scheme, members of the management team and Executive Directors. Therefore, at its meeting of 31 July 2008 the Board agreed to acquire 337,333 BME shares, equivalent to 0.40% of the share capital, which appear in the Company's balance sheet as indicated in section A.8. of this report.

At its meeting on 27 January 2011 the Appointments and Remuneration Committee ruled that the objectives had not been met. Beneficiaries of the scheme have therefore not received the mentioned incentive.

Annual Corporate Governance Report

a) The acquisition may be carried out either directly by the Company itself or indirectly through its subsidiaries.

b) The acquisition may be in the form of a trade, swap or *dación en pago* ("giving in payment"), in one or more instalments, whenever:

– The acquisition, including shares of the Company and of the persons who, in their own name, act on behalf of the Company, that had previously acquired and held by it, will not produce the effect of which the net patrimony, as defined in article 75.1.2^a of the *Ley de Sociedades Anónimas*, turns out to be lower than the amount of the share capital plus the legal and legally restricted reserves; and,

– the nominal value of the shares acquired do not amount to more than 10% of the share capital when added to those already owned by the Company and its subsidiaries.

c) The shares acquired must be fully paid up and free of any liens or encumbrances, and not subject to the fulfilment of any kind of obligation.

d) The acquisition price must not be lower than the nominal value or 20% higher than the price at which the stock is trading on the Spanish electronic trading platform (*Sistema de Interconexión Bursátil*) at the time of the acquisition.

This authorisation, which is granted for the maximum legal timeframe of five years, shall be without prejudice to events of open acquisition under the Act.

Additionally, for the purposes of sub-paragraph 2, paragraph 1, article 75 of the Companies Act, authorisation to acquire the Company's own shares is hereby expressly granted to any subsidiary on the same terms under this resolution.

It is hereby expressly stated that the shares acquired pursuant to this authorisation may be sold, redeemed or used as remuneration as described in sub-paragraph 3, paragraph 1, article 75 of the Companies Act.

Annual Corporate Governance Report

There are no restrictions on the acquisition or transfer of BME's stock.

Notwithstanding the above, the Spanish Securities Market Act grants the Spanish regulator, the Comisión Nacional del Mercado de Valores (CNMV) the power to oppose to the acquisition of significant stakes in the capital of BME pursuant to Royal Decree 361/2007 of 16 March, which developed Securities Market Act 24/1988 of 28 July, in matters related to the capital stock of companies which manage secondary markets or securities registration, clearing and settlement systems.

In accordance with the mentioned regulations, the CNMV should be informed, prior to the event, of any acquisition of BME shares with which they could reach, directly or indirectly any of the following percentages of its capital or voting rights: 1, 5, 10, 15, 20, 25, 33, 40 or 50 percent, or a lesser percentage that nonetheless supports the exercise of a significant influence over the Company. The ability to appoint or remove at least one Director is in all circumstances characterised as 'significant influence'.

The CNMV will have a time limit of 60 working days from the date of its acknowledgement of receipt of the notice to object to the intended acquisition, subject to the interruptions in the effluxion of the time limit allowed under article 69(6) of the Securities Market Act. If, during this time, the CNMV issues no statement, no objection will be deemed to exist.

This period is reduced for acquisitions of a significant stake equal to or higher than 1% but lower than 5%, or equal to or greater than 5% but less than 10%, of the Company's capital. If the CNMV does not issue a statement within ten working days or thirty working days, respectively, after the date the information is relayed or from the date any additional information required by the entity is delivered, the acquisition will be understood that no objection exists.

Furthermore, the Ministry of Economy and Finance, may, following the proposal of the CNMV, oppose the acquisition of a significant stake in BME's capital if it deems this to be necessary to ensure the smooth operation of the markets and to avoid distortions, or if Spanish companies are not provided equivalent treatment in the acquirer's country of origin, or that of the entity which directly or indirectly controls the acquirer.

A.11. Indicate whether the General Shareholders' Meeting has agreed to take neutralisation measures to prevent a takeover bid by virtue of the provisions of Act 6/2007.

If applicable, explain the measures adopted and the terms under which these restrictions may be lifted:

Procedures for establishing Board members' remuneration and relevant provisions in the Articles of Association

Article 40 of the Company's Articles of Association establishes that the post of Director shall be remunerated, and that this remuneration shall comprise a fixed amount and per diems for attending meetings and be set on an annual basis at the General Shareholders' Meeting.

Article 18.2 c) of the Board of Directors' Regulations states that the Appointments and Remuneration Committee is responsible for reporting on proposals for Directors' remuneration submitted by the Board at the Shareholders' Meeting or those approved by the Board itself.

Article 29 of the Board of Directors' Regulations stipulates that any resolution taken by the Board of Directors and submitted at the General Shareholders' Meeting for approval relating to Directors' remuneration shall be implemented on the basis of a previous report made by the Appointments and Remuneration Committee. This previous report shall have regard to corporate governance standards and market conditions, bearing in mind the Company's nature and activity and the Director's commitment. In any event, in order to be submitted at the General Shareholders' Meeting, the Board of Directors must express an opinion on the amount of the fixed remuneration and the per diems for attendance at Board and Committee meetings, the items of any type of variable remuneration, the terms and conditions that must be laid down in the contracts entered into by the Company and Directors performing senior management functions and, where applicable, benefit schemes.

The Board's proposals to the General Shareholders' Meeting for setting the appropriate fixed annual sum payable to each Board member must take into account the type of Director and the offices, functions and commitment of each of the Directors on the Board and the Board Committees.

If the Board's proposal is for a fixed annual amount to be set for the whole Board, the sum set should be distributed among the Board members on the basis of same criteria as those set forth above.

Article 29 also states that it shall be the responsibility of the Board of Directors to submit to the General Shareholders' Meeting for approval any remuneration additional to that relating to their status as Directors payable to Directors with executive functions in the Company, based on service provision, senior management or similar contracts entered into by the Company and said Directors.

In compliance with the abovementioned articles of the Articles of Association and Board of Directors' Regulations, the remuneration paid to Directors and the Chairman in 2010 was approved at BME's Ordinary General Shareholders' Meeting held on 29 April 2010, following the proposal by the Board of Directors subsequent to a favourable report by the Appointments and Remuneration Committee.

This same BME Ordinary General Shareholders' Meeting, at the proposal of the Board of Directors and having received a report from the Appointments and Remuneration Committee, adopted the Chairman's fixed and variable pay in respect of his duties as Chairman of the Board of Directors and chief executive of the Company.

1.- Appointment.

1.A.- Responsibility.

The number of Company Directors shall be established at the General Shareholders' Meeting, and shall be within the maximum (20) and minimum (12) set by the Articles of Association.

In accordance with the agreement approved at the Extraordinary General Shareholders' Meeting held on 5 June 2006, the Board of Directors comprises 15 members.

The proposed candidates must not be affected by any incompatibility or prohibition pursuant to the Company's Articles of Association and Board of Directors' Regulations.

Annual Corporate Governance Report

To be a shareholder is not a requirement to be appointed Director except in the event of appointment by co-option when it does become a requirement.

According to article 21 b) of the Board of Directors' Regulations, independent Directors may not hold directorships at more than four companies whose shares are listed on Spanish or foreign stock markets, nor may they serve as Directors for more than 12 consecutive years without a break, nor may they be re-elected for more than two consecutive terms pursuant to article 20(2) of the Board of Directors' Regulations.

The same article stipulates that Executive Directors may not hold directorships at any other listed Company.

1.D.- Procedures.

Appointment proposals that the Board of Directors submits to the General Shareholders' Meeting, and any resolutions on appointments by co-option adopted by the Board, must be preceded by a report from the Appointments and Remuneration Committee which must assign new Directors to one of the categories envisaged in article 6 of the Board Regulations and also assess their impact on the structure and composition of the Board.

In any case, the Appointments and Remuneration Committee shall be responsible for submitting to the Board all proposals for the appointment or re-election of independent Directors for subsequent discussion at the General Shareholders' Meeting, and for their provisional appointment by co-option.

1.E.- Breakdown of Directorships by type.

The Board of Directors shall seek to distribute its members among the different types of Director in the manner most fitting to the Company's ownership structure and its corporate purpose and the purpose of group companies. However, the Board shall be obliged to submit its proposals at the General Shareholders' Meeting plus appointments by co-option in such a way that external or non-

executive Directors are a majority over executive Directors and that there is a significant presence of independent Directors.

2.- Re-election.

Proposals for the re-election of Directors shall be subject to the same rules as for their appointment, taking into particular account the quality of services rendered by Directors and their commitment during the previous term of office. Directors standing for re-election shall not take part in any discussions or decisions concerning their re-election.

3.- Evaluation.

In accordance with article 10(3) of the Board of Directors' Regulations, the Board of Directors shall annually assess the efficiency of its operation and the quality of its work on matters within its remit. Directors shall vacate office at the end of the term for which they were appointed, unless they are re-elected, or when it is so decided at the General Shareholders' Meeting.

The Board of Directors may not propose the removal of any independent Director before the end of the term for which they were appointed unless they have valid grounds for doing so on the basis of a proposal from the Appointments and Remuneration Committee. Valid grounds shall be deemed to exist when Directors have failed to perform the functions inherent to their office or they are affected by any of the circumstances that are incompatible with their status as independent Directors.

Any Directors vacating office before the end of their term, and for whatever reason, must explain these reasons in a letter sent to all Board Members.

Annual Corporate Governance Report

- In cases of incompatibility or prohibition stipulated by the Company's Articles of Association and Board of Directors' Regulations.
- In the case of non-independent Directors, when the shareholder whom they represent sells their entire shareholding, or in the appropriate numerical proportion to any reduction in that shareholder's stake.
- In general, when their continuation as Board members could jeopardise the Company's interests.

When the aforementioned circumstances affect an individual representing a legal entity that is a Director, the latter must proceed immediately to replace that representative.

In addition to the above, and as stated in the previous section, the Board of Directors, at the proposal of the Appointments and Remuneration Committee, shall propose the removal of independent Directors when they have failed to perform the functions inherent to their office or they are affected by any of the circumstances that are incompatible with their status as independent Directors.

Pursuant to articles 25 and 7 of the Articles of Association and the Board of Directors' Regulations, respectively, the Board of Directors is empowered with the general function of driving, directing and supervising matters that are of particular importance for the Company.

The Board of Directors shall therefore be in charge of the general function of driving, directing and supervising matters that are of particular importance to the Company, undertaking in this respect as general tasks, among others, those of defining the general strategy and management guidelines of the Company, giving impetus to and overseeing the senior management, establishing the basis of the corporate organisation in order to ensure its maximum efficiency, monitoring the transparency and veracity of the information released by the Company in its relations with investors and with the markets in general, identifying the Company's main risks and supervising the internal control systems, as well as organising its own operation. The Board of Directors shall also establish adequate coordination between group companies for their own benefit and mutual interest and those of the Company.

As stipulated in the above-mentioned articles, the Board of Directors, which is the Company's highest decision-making body, except for issues falling within the remit of the Shareholders' Meeting, shall entrust the running of the Company's ordinary business to the Board Committees, executive members and senior management team.

Also, under article 27 of the Company's Articles of Association members of the Board of Directors may request the Chairman to call a Board meeting and a Board meeting must necessarily be called when at least four members of the Board of Directors request one. Also the Agenda must include the items requested by them. If the Chairman fails to call a meeting in the fifteen calendar days following receipt of the request, the meeting must then be called by any of the vice chairman.

Regarding the Agenda of the Meeting, Directors may request the Chairman to include items on the Agenda and the Chairman is obliged to do so when they are requested by at least four Directors at least 10 days in advance of the scheduled date of the meeting, as established by article 10.2 of the Board of Directors' Regulations. And, without prejudice of the possibility that Directors may raise relevant issues during the Board meetings.

C.6 List the mechanisms established to detect, determine and resolve any possible conflicts of interest between the Company and/or its group, and its Directors, management or significant shareholders.

1.- Conflicts of interest between the Company and/or its group and its Directors.

Article 21.c) of the Board of Directors' Regulations states that Directors must not participate in discussions and votes by the Board of Directors and any of its Committees that refer to matters in respect of which the Directors or their related parties have a direct conflicting interest, and they must notify the Board of any such situations. Non-independent external Directors must not participate in votes on matters in which the shareholders who proposed their appointment and the Company have a direct conflicting interest.

Article 26 of these Regulations also establishes that Directors may not use the Company's name or invoke their status as Director to perform transactions on their own account or on the account of related parties. Furthermore, as mentioned in section B.2.3 above, any use of Company assets by Directors which is not made in return for adequate valuable compensation shall require prior authorisation from the Audit Committee.

Lastly, in order to avoid possible conflicts of interest, article 21 a) of the Board of Directors' Regulations, stipulates that Directors may not hold office or perform the functions of Director, representative, manager, advisor or service provider at competing companies or companies wielding a dominant or controlling position thereupon, without the express and justified authorisation of the Board of Directors subject to a prior report by the Appointments and Remuneration Committee.

Directors must also notify the Audit Committee before accepting any directorship or management position in another Company or entity, as established in article 27 of the Board of Directors' Regulations.

Also, in accordance with the provisions of article 28 of the Board of Directors' Regulations, transactions, operations or actions undertaken by Directors and significant shareholders and/or their related parties in their activities on the markets and systems managed by Group companies shall not require prior authorisation, nor shall they be subject to disclosure obligations, provided that they are within the ordinary course of business of the parties involved and on an arm's length basis, without prejudice to compliance with any regulations applicable to transactions with related parties.

In other instances, as stated above in section C.1., transactions or actions must be authorised by the Board of Directors acting in full.

Notwithstanding, members of the Company's Board of Directors are also affected by the obligations established in this respect by the Internal Regulations of Conduct for BME and group employees described below.

2.- Conflicts of interest between the Company and its group and its Directors and employees.

BME's Internal Regulations of Conduct apply to all employees and members of the Boards of Directors of the Company and its groups. Rule V of this conduct establishes that Individuals affected must act with due impartiality and in no case place their own interests before those of the Company and their decisions shall be based on what best serves the interests and legally attributed functions of BME.

Section B of Rule V of the Internal Regulations of Conduct states that BME's Directors, senior management and employees shall endeavour to avoid conflicts of interest with BME shareholders, members of or participants in the markets or systems governed or managed by companies belonging to the BME group, or with the issuers of the securities affected listed on those markets or systems or which have applied for listing.

If affected by a conflict of interest, they shall refrain from intervening in or influencing the discussion and taking of decisions concerning the persons or entities to which the direct interest in conflict refers, and shall notify whoever is responsible for decision-making accordingly. Notwithstanding the foregoing, the individuals affected may participate in the discussion and approval of any rules, instructions or decisions that will apply generally to all investors, market members or companies with securities admitted to trading.

All individuals affected by the Internal Regulations of Conduct must notify the Standards of Conduct Unit of any possible conflicts of interest, which may affect them or related parties, as stipulated by the same Internal Regulations of Conduct.

Annual Corporate Governance Report

The existence of any conflict of interest must be notified within five days of the moment it becomes known and notification must be given before any decision or measure is taken which may be affected by the existence of this conflict of interests. Individuals affected must keep the information they supply up to date, giving notice of the termination of or any change in the situation of conflict and the emergence of new situations of this type.

Section G of Rule V stipulates that the Standards of Conduct Unit shall be made available to all individuals affected by the Internal Regulations of Conduct to address any doubts concerning possible conflicts of interest and, in the event, the correct action to be taken.

3.- Conflicts of interest between the Company and its significant shareholders.

Articles 19.2.b) of the Board of Directors' Regulations and article 7.1b) of the Markets and Systems Operating Procedures Committee Regulations stipulate that the Markets and Systems Operating Procedures Committee must be cognisant with the procedures established so that normal market conditions and the principle of equal treatment are applied to the transactions, operations and actions which the Company, its Directors or shareholders with significant and stable capital shareholdings perform as issuers, clients or users in the markets and systems managed by Group companies.

In this regard, the above mentioned article 28 of the Board of Directors' Regulations stipulates that transactions, operations or actions undertaken by Directors and significant shareholders and/or their related parties in their activities on the markets and systems managed by Group companies shall not require prior authorisation, nor shall they be subject to disclosure obligations, provided that they are within the ordinary course of business of the parties involved and on an arm's length basis, without prejudice to compliance with any regulations applicable to transactions with related parties. D. Risk Control Systems

D.1. Give a general description of risk policy in the Company and/or its group, detailing and evaluating the risks covered by the system, together with evidence that the system is appropriate for the profile of each type of risk.

The inherent risks of the activity carried out by BME Group companies are managed with criteria which allows the Company to pursue its interests and maximise its value, profitability and efficiency along with its other legitimate interests, both public and private, in a way whereby it is able to grow and operate in the markets and systems where Group subsidiaries operate and abide by the Securities Market Act and its provisions.

BME is directly or indirectly the owner of companies operating in securities registration, clearing and settlement systems and official secondary markets in Spain and multilateral trading systems, responsible for the unity of action, decision and strategic co-ordination of the afore-mentioned companies, structured into seven business units and seven corporate areas.

Risk control and management policy, laid down by the Board of Directors and managed by the Co-ordination Committee, falls to be implemented by the Risk Committee in its capacity as the body responsible for monitoring and analysing the risks arising from the various activities carried on by Group companies in the framework of a scheme of management coordinated through Business Units and Corporate Areas. The Risk Committee is also responsible for producing the corporate Risk Map, subsequently to be maintained by the various officers responsible for managing identified risks and by the Internal Audit Department.

The Risk Committee has constructed an integrated risk management system (Spanish 'SIGR') following the methodological framework specified in the COSO II paper. Having regard to the nature of each specific risk, the following lines of action are carried on in parallel:

- Business risks are managed on a decentralised basis; each Business Unit or Corporate Area is autonomous, and all units and areas report to the Risk Committee.
- Corporate risks (strategic, financial, regulatory, technological, human resource-related) are managed on a centralised basis, coordinated among the different areas and treated at corporate level with homogenous communication to the Risk Committee.

Production and maintenance of the corporate Risk Map requires that each risk officer regularly update the information on each identified global risk needed for management and control; new events are identified and action plans are rearranged as necessary. The Internal Audit Department evaluates the controls in place and quantifies residual risk.

At each year-end the Risk Committee uses the updated consolidated information to prepare an annual SIGR report for circulation to the Coordination Committee and the head of Internal Audit. The Board of Directors is informed of the SIGR report.

One of the overarching themes of SIGR is to review business processes from a risk perspective. This review is undertaken by the Internal Audit Department and/or by Business Units and Corporate Areas. The risks identified and evaluated by Business Units and Corporate Areas are characterised at the individual process level so as to pinpoint critical processes and facilitate faster response. Risk review follows a standard methodology across the entire BME Group, through the revision of the activities embraced by each process, and generates the following documents: flowcharts, a narrative report and a risk and control matrix.

BME is present throughout the whole value chain in the management of several financial markets, exposing it to a variety of risks:

Operating risks: The risk of direct or indirect losses caused by inadequacies or faults committed by procedures, personnel or internal systems or due to external events. Operating risks can be classified according to whether they affect the BME group as a whole or whether they apply exclusively to one of its business units and corporate areas.

Operating risks affecting all BME business groups and areas include:

- Risk of fraud: The risk of action being committed to bypass the law, causing damage to third parties or to the group itself.
- IT risk: The risk of faults occurring in the IT and electronic systems used by the group, either internally or affecting the market. Such faults could be caused by errors in communications, or hardware or software malfunctions. Includes faults in the collection and dissemination of market information to market users. Risks also include alterations and/or violations of the Company's

Annual Corporate Governance Report

security systems. Given the nature of its operations, this is considered one of the main risks for the BME group.

-Risk of administrative errors: These include errors resulting from miscalculations, deficient execution procedures, manual errors or the failure to keep data bases up to date. They also include errors in invoicing or following up payments.

Risks affecting the Securities Settlement System: Article 44 bis of Act 24/1988, of 28 July of the Securities Market stipulates that IBERCLEAR is Spain's central securities depository, which keeps accounting records and carries out clearing and settlement of securities listed for trading on Spanish stock exchanges, the book-entry public debt market, AIAF as well as Latibex, the market for Latin American stocks traded in euros and MAB (Mercado Alternativo Bursátil).

These responsibilities imply to IBERCLEAR the fulfilment of the specific regulation applicable to the upkeep of book entries of securities admitted to trading on the system and ensuring the settlement of market transactions concluded in the market and based on the compliance with two of the main governing principles of the Settlement System: the multilaterality and the delivery vs. payment principles.

- Depository risk. Incorrect balances being fed into the system vs. balances issued, dual entries, incorrect breakdowns of third-party accounts etc. and which may affect normal operations and the Company's reputation at home and abroad as well as the overall system.

- Inherent risk in the securities settlement system. There are two types:

- Insufficient guarantees when settlement is affected: These could arise from an incorrect calculation of deposits and guarantees of each participating entity or the lack of deposit by the participating entity to hedge the risk inherent in its transactions.

- Risk from failure to deliver securities: Due to insufficient hedging mechanisms in the system, centralised lending, share buyback programmes.

Opposite of the principles governing the buying and selling of securities in the stock markets, settlement via the CADE platform, Public Debt and Fixed Income transactions, are bilateral and, in the event of incompliance, settlement shall not occur.

Market risks: These are the current or potential risks posed by unfavourable movements in interest rates or changes in prices or share prices, or in variations in trading volumes.

Liquidity or solvency risk: The risk that a group Company is unable to meet its payments commitments.

Credit or counterparty risk: The risk of a Company debtor failing to meet its payment commitments or a deterioration of its credit rating. We identify two main risks affecting the BME group:

- Counterparty risk associated with settlement in MEFF: In its role as the central clearing house, the risk adopted by MEFF as a counterparty of the position of an Owner or Member of MEFF is covered by guarantees requested by MEFF and constituted by the member for said risk.

- Risk deriving from non-payment of invoices or fees.

Industry risk: Risks relating to regulatory changes, the Company's reputation, sector competency, relations with stakeholders, the political, economic, legal and tax environment, and significant regulatory changes.

Annual Corporate Governance Report

The BME Group's risk control system has been drawn up in accordance with international standards. It is based on the following:

1. The legal regime of BME Group companies that manage securities registration, clearing and settlement systems, Spanish official secondary markets and multilateral trading systems is regulated on the Securities Market Act and its provisions.
2. Pursuant to the abovementioned regulation, BME's Financial Statements and those of most of its group companies are verified by an external auditor. Likewise, as stipulated by the regulation for each market and its registration, clearing and settlement systems, in addition to their audit report the external auditors shall review the internal control systems and assess the appropriateness of each one.
3. The Company has an Internal Audit Department which reports to the Audit Committee which operates throughout the BME Group and which acts in keeping with the Framework for Professional Practice of the Institute of Internal Auditors.
4. BME's Group companies are members of the European Association of Central Counterparty Clearing Houses (EACH), the European Central Securities Depositories Association (ECSDA) and the Federation of European Stock Exchanges (FESE). These bodies share a common goal of obtaining greater efficiency and integration in the capital markets based on the best practice recommendations for securities settlement systems put forward by the Bank for International Settlements (BIS) and the International Organization of Securities Commissions (IOSCO).
5. In order to establish common control systems there are regulations governing the different business units and corporate areas which regulate basic matters including:
 - a. Financial and accounting matters. The financial and accounting information process for the financial business area has an internal control system in place which is currently being reviewed and documented in accordance with BME's SIGR methodology. This will enable it to comply with the new regulatory requirements aimed at improving the transparency of the information which listed companies must disseminate to the market. These include:
 - i. A "Procedures and Criteria" Manual which contains valuation regulations, accounting criteria, criteria for intra-Group transactions as well as closure and management control instructions.
 - ii. Corporate Accounting Plan.
 - iii. Annual calendar for financial and accounting information.
 - iv. Corporate Order Management and Follow-up procedures.
 - b. Information to markets:
 - i. Policies on the collection, treatment and dissemination of information to the markets.
 - ii. Procedure for drawing up and sending periodical information to Supervisory Bodies.
 - c. IT Security. The IT business area constantly strives to meet the most demanding standards and the sector's best practices. To this end it has:
 - i. An Information Security Management System (SGSI in Spanish) in accordance with ISO/IEC 27001, which includes policies, procedures and organisational structures to ensure that BME's assets are efficiently and suitably protected.
 - ii. A General Security Policy laid down by Group Management, which includes measures to involve all personnel in IT Security.
 - iii. A Security Committee, reporting to the Risk Committee, comprising senior managers from the various business areas and the person in charge of the IT Security Team which monitors and analyses the risks arising from use of the reporting systems, technology and communications in the day-to-day activities of BME Group companies.
 - iv. An Information Security Team, reporting to BME's IT business area, responsible for implementing, operating and maintaining the SGSI, in accordance with the Security Committee's guidelines.

Annual Corporate Governance Report

v. A Joint Business Continuity and Contingency team specifically designed to meet the information and trading needs, the breakdown and settlement of securities and transparency to customers which does not affect its structure or make the contingency operations difficult.

vi. An external technological audit company to detect at system level the vulnerability of all machines which are visible from the internet.

6. The Company is a member of CECON (Consortio Español de Continuidad de Negocio, the Spanish business continuity consortium), together with the leading players in the financial services industry (regulatory bodies and commercial entities). The consortium was formed to enhance financial stability by extending the latest know-how and best practices relating to business continuity.

7. BME's Board of Directors approved the Company's Internal Regulations of Conduct which applies to all members of the Boards of Directors and employees of all group companies, and establishes the duties they are liable to perform in the area of confidentiality and integrity, developed by the Board of Directors through the approval of the "Guidelines of the treatment and transmission of preferred information" as well as allowing group companies to approve special rules of conduct. In these cases, the Internal Regulations of Conduct shall apply in the absence of such special rules.

8. Given the particular nature of the activities carried out and the risks managed, the group companies have set up Risk Committees. MEFF's Risk Committee assesses risk management and every month its Central Clearing House is assessed using stress testing methodology (IOSCO).

9. Liquidity management is standard throughout the BME group and the criteria applied are established by the Company's Board of Directors, based on a prior report from the Audit Committee. The conditions under which the Company should effect the purchase of assets, the terms of these operations and authorisation levels are specified therein. The main objective is to prioritise security and minimise investment risk, and this rules out the possibility of effecting speculative operations.

10. The Company also has in place a Communication Procedure regarding deficiencies in the risk control and management systems which has been approved by the Audit Committee whereby Company personnel may anonymously report any irregularity in the internal control and risk management systems.

D.2. Indicate whether the Company has been exposed to different types of risk (operational, technological, financial, legal, reputational...) during the year:

E.10. Indicate and explain the policies pursued by the Company with reference to proxy voting at the General Shareholders' Meeting.

Article 16 of the Company's Articles of Association and article 12 of the General Shareholders' Meeting Regulations set out the shareholders' rights to attend by proxy the General Shareholders' Meeting.

Proxies.

All shareholders entitled to attend the Shareholders' Meeting may appoint another shareholder with the right to attend to represent them thereat, or any member of the Board of Directors or the Secretary or Deputy Secretaries to the Board, whether they are Directors or not, without prejudice to the legally-stipulated provisions for family representation, granting of general powers and public calls for proxies.

If no individual is named as proxy, the Chairman of the General Shareholders' Meeting shall act as such.

In any event, regardless of whether proxies are voluntary or legal or appointed in response to public solicitation, shareholders may only be represented at a General Shareholders' Meeting by one proxy holder.

Granting proxies.

Proxies must be granted in writing specifically for each Meeting, using the formula specified by the Company for each Meeting and detailed on the attendance card or, as appropriate, by means of remote communication as provided in the internal rules.

Annual Corporate Governance Report

For this purpose, the General Secretary and the Secretary to the Board of Directors shall issue and send each shareholder an attendance card made out in their name with details on granting proxies.

Also, and pursuant to articles 21.3 of the Articles of Association and 19.8.c) of the Regulations of the General Shareholders' Meeting, shareholders may grant proxies for the General Shareholders' Meeting by remote means of communication, either by post, using attendance cards made out in their name, or online (www.bolsasymercados.es) in accordance with the supplementary rules for granting proxies approved by the Board of Directors for each Meeting.

The procedure for exercising rights of proxy representation is set out in the notice of General Shareholders' Meeting, which also specifies the procedures for voting and granting proxies by remote means of communication.

In the event of public solicitation of proxy appointment, the document recording the appointment must contain the Agenda or have it attached to it, together with the request for instructions for exercising the right to vote and the indication of how the proxy holder will vote if precise instructions are not given. A public solicitation will be deemed to have taken place when a single person represents more than three shareholders.

Proxy validity.

A proxy may be revoked at any time. Personal attendance at the General Shareholders' Meeting by the grantor of a proxy shall be deemed to constitute a revocation of the proxy.

Also, the validity of proxies appointed shall be subject to verification against the Company's shareholder register.

Exercising the right of proxy appointment.

Shareholders granting proxies for the General Shareholders' Meeting may issue voting instructions for the proposals of the Board of Directors where indicated on the attendance card and, if using remote means of communication, in the corresponding section on the corporate website: www.bolsasymercados.es.

If the shareholder has not given precise voting instructions on the attendance card, or, if applicable, in the corresponding section on the corporate website, votes shall be deemed to be in favour of the proposals of the Board of Directors.

The proxy may also include matters that, not being included in the agenda, may be legally transacted at the Meeting. In this case, the proxy holder may cast his vote in the manner he considers best suits the interests of the shareholder he represents.

If the grantor of the proxy has issued instructions, the proxy holder may vote otherwise should circumstances arise that were not known at the time the instructions were given and there is a risk of jeopardising the interests of the proxy grantor.

In both these cases, the proxy holder must inform the proxy grantor immediately, in writing, explaining the reasons for the vote.

In cases where a Director has publicly solicited appointment as a proxy and faces a conflict of interest when exercising the right to vote of the shares for which he holds the proxy with regard to the draft resolution being put to the vote, the proxy grantor may resolve this situation by giving instructions for the substitution of the proxy by a third party not affected by the conflict of interest, unless the proxy grantor has explicitly given instructions against. In this case, it will be deemed that the proxy grantor instructs the holder to abstain.

E.11. Indicate whether the Company is aware of the policy of institutional investors on whether or not to participate in the Company's decision-making processes.

E.12. Indicate the address and mode of accessing corporate governance content on your Company's website.

F. Degree of compliance with Corporate Governance Recommendations.

Indicate the degree of the Company's compliance with Corporate Governance recommendations.

Should the Company not comply with any of them, explain the recommendations, standards, practices or criteria the Company applies.

1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the Company by means of share purchases on the market.

See sections: A.9, B.1.22, B.1.23 and E.1, E.2.

2. When a dominant and a subsidiary Company are stock market listed, the two should provide detailed disclosure on:

a) The type of activity they engage in, and any business dealings between them, as well as between the subsidiary and other group companies;

b) The mechanisms in place to resolve possible conflicts of interest.

See sections: C.4 and C.7.

Complies Partially complies Explain Not applicable

3. Even when not expressly required under Company law, any decisions involving a fundamental corporate change should be submitted to the General Shareholders' Meeting for approval or ratification. In particular:

a) The transformation of listed companies into holding companies through the process of subsidiarisation, i.e. reallocating core activities to subsidiaries that were previously carried out by the originating firm, even though the latter retains full control of the former;

b) Any acquisition or disposal of key operating assets that would effectively alter the Company's corporate purpose;

c) Operations that effectively add up to the Company's liquidation.

4. Detailed proposals of the resolutions to be adopted at the General Shareholders' Meeting, including the information stated in Recommendation 28, should be made available at the same time as the publication of the Meeting notice.

b) Amendments to the bylaws, with votes taken on all articles or groups of articles that are materially different.

See section: E.8.

8. The Board should see the core components of its mission as to approve the Company's strategy and authorise the organisational resources to carry it forward, and to ensure that management meets the objectives set while pursuing the Company's interests and corporate purpose. As such, the Board in full should reserve the right to approve:

a) The Company's general policies and strategies, and, in particular:

Annual Corporate Governance Report

See section: B.1.14.

c) Transactions which the Company conducts with Directors, significant shareholders, shareholders with Board representation or other persons related thereto (“related-party transactions”).

However, Board authorisation need not be required for related-party transactions that simultaneously meet the following three conditions:

- 1^a. They are governed by standard form contracts applied on an across-the-Board basis to a large number of clients;
- 2^a. They go through at market prices, generally set by the person supplying the goods or services;
- 3^a. Their amount is no more than 1% of the Company’s annual revenues.

It is advisable that related-party transactions should only be approved on the basis of a favourable report from the Audit Committee or some other committee handling the same function; and that the Directors involved should neither exercise nor delegate their votes, and should withdraw from the meeting room while the Board deliberates and votes.

Ideally the above powers should not be delegated with the exception of those mentioned in b) and c), which may be delegated to the Executive Committee in urgent cases and later ratified by the Board in full.

See sections: C.1 and C.6.

9. In the interests of maximum effectiveness and participation, the Board of Directors should ideally comprise no fewer than five and no more than fifteen members.

See section: B.1.1.

10. External Directors, proprietary and independent, should occupy an ample majority of Board places, while the number of executive Directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

11. In the event that some external Director can be deemed neither proprietary nor independent, the Company should disclose this circumstance and the links that person maintains with the Company or its senior officers, or its shareholders.

12. That among external Directors, the relation between proprietary members and independents should match the proportion between the capital represented on the Board by proprietary Directors and the remainder of the Company’s capital.

This proportional criterion can be relaxed so the weight of proprietary Directors is greater than would strictly correspond to the total percentage of capital they represent:

- 1^a. In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, despite the considerable sums actually invested;

See section: B.1.3.

14. The nature of each Director should be explained to the General Meeting of Shareholders, which will make or ratify his or her appointment. Such determination should subsequently be confirmed or reviewed in each year's Annual Corporate Governance Report, after verification by the Nomination Committee. The said Report should also disclose the reasons for the appointment of proprietary Directors at the urging of shareholders controlling less than 5% of capital; and explain any rejection of a formal request for a Board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

See sections: B.1.3 and B.1.4.

15. When women Directors are few or non existent, the Board should state the reasons for this situation and the measures taken to correct it; in particular, the Nomination Committee should take steps to ensure that:

- b) The Company makes a conscious effort to include women with the target profile among the candidates for Board places.

See sections: B.1.2, B.1.27 and B.2.3.

16. The Chairman, as the person responsible for the proper operation of the Board of Directors, should ensure that Directors are supplied with sufficient information in advance of Board meetings, and work to procure a good level of debate and the active involvement of all members, safeguarding their rights to freely express and adopt positions; he or she should organise and coordinate regular evaluations of the Board and, where appropriate, the Company's chief executive, along with the chairmen of the relevant Board committees.

See section: B.1.42.

Complies Partially complies Explain

17. When a Company's Chairman is also its chief executive, an independent Director should be empowered to request the calling of Board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external Directors; and to lead the Board's evaluation of the Chairman.

See section: B.10.21

Complies Partially complies Explain Not applicable

The Board of Directors is of the opinion that the measures described in section B.1.21 of this report guarantee the proper operation of the Board of Directors. These include the establishment by the Board of Directors in plenary sessions of an annual calendar for ordinary meetings at the beginning of each year, the requirement to hold a minimum of nine meetings a year and the Chairman calling a Board Meeting or including new items on the agenda at the request of at least four Directors.

Annual Corporate Governance Report

All these measures guarantee that the Board of Directors shall annually hold the necessary meetings to carry out the promotion, management and supervisory functions established in the Company's internal regulations as well as deal with the issues its members consider relevant to the Company.

At the same time, the Appointments and Remuneration Committee, chaired by an external independent Director and comprised by non-executive Directors only, and among them by a majority of independent Directors, shall issue an annual report on the performance of the Board's Chairman and BME's Chief Executive Officer, which is subject to approval by the Board of Directors.

The involvement of the Appointments and Remuneration Committee in drawing up, approving and presenting the Board with its annual report on the performance of the Board's Chairman and CEO shall guarantee the independence of this evaluation process.

18. The Secretary should take care to ensure that the Board's actions:

- a) Adhere to the spirit and letter of laws and their implementing regulations, including those issued by regulatory agencies;
- b) Comply with the Company bylaws and the regulations of the General Shareholders' Meeting, the Board of Directors and others;
- c) Are informed by those good governance recommendations of the Unified Code that the Company has subscribed to.

In order to safeguard the independence, impartiality and professionalism of the Secretary, his or her appointment and removal should be proposed by the Nomination Committee and approved by a Board meeting in full; the relevant appointment and removal procedures being spelled out in the Board's regulations.

See section: B.1.34.

20. Director absences should be kept to the bare minimum and quantified in the Annual Corporate Governance Report. When Directors have no choice but to delegate their vote, they should do so with instructions.

23. All Directors should be able to exercise their right to receive any additional information they require on matters within the Board's remit. Unless the bylaws or Board regulations indicate otherwise, such requests should be addressed to the Chairman or Secretary.

See section: B.1.42.

Complies Explain

24. All Directors should be entitled to call on the Company for the advice and guidance they need to carry out their duties. The Company should provide suitable channels for the exercise of this right, extending in special circumstances to external assistance at the Company's expense.

See section: B.1.41.

Complies Explain

25. Companies should organise induction programmes for new Directors to acquaint them rapidly with the workings of the Company and its corporate governance rules. Directors should also be offered refresher programmes when circumstances so advise.

Complies Partially complies Explain

26. Companies should require their Directors to devote sufficient time and effort to perform their duties effectively, and, as such:

a) Directors should apprise the Nomination Committee of any other professional obligations, in case they might detract from the necessary dedication;

b) Companies should lay down rules about the number of directorships their Board members can hold.

See sections: B.1.8, B.1.9 and B.1.17.

Complies Partially complies Explain

The Board of Directors' Regulations include various sections on the regulation of the Directors' duties and, in particular, the need to devote sufficient time and effort to perform their duties effectively.

In this regard, BME complies with section a) of this Recommendation as article 21.a) of the Board of Directors' Regulations states that the Appointments and Remuneration Committee must be informed of all professional commitments which may impede the Director from efficiently carrying out his functions. In keeping with this obligation, article 27 of the Regulations states that Directors must notify the Company, via its Chairman, of any positions they hold at other companies or entities, and before accepting any directorship or management position in another Company or entity, and should inform the Audit Committee of their intention to do so.

With regard to establishing rules on the number of Directors who may constitute BME's Board of Directors, as indicated in section B.1.9 of this report, the Board of Directors' Regulations limits the participation of its independent and executive Directors in other Boards of Directors but does not establish a limit on the number of non-independent external Directors.

The lack of limits placed on its non-independent external Directors can be justified by the fact that their appointment is put forward by the significant shareholder which they represent based on their knowledge and professional experience in the sector in which the Company operates.

In any event, the Appointments and Remuneration Committee, in compliance with its obligation to previously notify the appointment of a non-independent external Director, may deem that the candidate's other professional obligations could impede him from effectively carrying out his functions as a Director.

Annual Corporate Governance Report

27. The proposal for the appointment or renewal of Directors which the Board submits to the General Shareholders' Meeting, as well as provisional appointments by the method of co-option, should be approved by the Board:

- a) On the proposal of the Nomination Committee, in the case of independent Directors;
- b) Subject to a report from the Nomination Committee in all other cases.

See section: B.1.2.

Complies Partially complies Explain

28. Companies should post the following Director particulars on their websites, and keep them permanently updated:

- a) Professional experience and background;
- b) Directorships held in other companies, listed or otherwise;
- c) An indication of the Director's classification as executive, proprietary or independent; in the case of proprietary Directors, stating the shareholder they represent or have links with;
- d) The date of their first and subsequent appointments as a Company Director; and
- e) Shares held in the Company and any options on the same.

Complies Partially complies Explain

29. Independent Directors should not stay on as such for a continued period of more than 12 years.

See section: B.1.2.

Complies Explain

30. Proprietary Directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary Directors, the latter's number should be reduced accordingly.

See sections: A.2., A.3. and B.1.2.

Complies Partially complies Explain

In 2010 Banco Santander, S.A. reduced its stake in BME without the subsequent reduction in the number of Directors.

The Company is of the opinion that the number of Directors representing Banco Santander, S.A., is correct and beneficial for the proper operation of the Board of Directors, and appropriate for pursuing BME's interests

In this regard, the two Directors representing Banco Santander have sufficient knowledge of the Company and the sector in which BME carries out its activities, both within Spain and abroad. In addition to this knowledge, both Directors have extensive experience as to the obligations and responsibilities a Director must have in the company and the commitment which the Company they represent has with BME. This commitment has been constant since 2002 and demonstrated by the various Directors representing the Company.

31. The Board of Directors may not propose the removal of any independent Director before the expiry of their tenure for which they were appointed unless they have valid grounds for doing so on the basis of a proposal from the Appointments and Remuneration Committee. In particular, just cause will be presumed when a Director is in breach of his or her fiduciary duties or comes under one of the disqualifying grounds enumerated in section III.5 (Definitions) of this Code.

The removal of independents may also be proposed when a takeover bid, merger or similar corporate operation produces changes in the Company's capital structure, in order to meet the proportionality criterion set out in Recommendation 12.

Annual Corporate Governance Report

See sections: B.1.2, B.1.5 and B.1.26.

32. Companies should establish rules obliging Directors to inform the Board of any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, with particular mention of any criminal charges brought against them and the progress of any subsequent trial.

The moment a Director is indicted or tried for any of the crimes stated in article 124 of the Public Limited Companies Act, the Board should examine the matter and, in view of the particular circumstances and potential harm to the Company's name and reputation, decide whether or not he or she should be called on to resign. The Board should also disclose all such determinations in the Annual Corporate Governance Report.

See sections: B.1.43 and B.1.44.

Complies Partially complies Explain

33. All Directors should express clear opposition when they feel a proposal submitted for the Board's approval might damage the corporate interest. In particular, independents and other Directors unaffected by the conflict of interest should challenge any decision that could go against the interests of shareholders lacking Board representation.

When the Board makes material or reiterated decisions about which a Director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next Recommendation.

The terms of this Recommendation should also apply to the Secretary of the Board; Director or otherwise.

34. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the Board. b) Variable components, in particular:

i) The types of Directors they apply to, with an explanation of the relative weight of variable to fixed remuneration items;

ii) Performance evaluation criteria used to calculate entitlement to the award of shares or share options or any performance-related remuneration;

iii) The main parameters and grounds for any system of annual bonuses or other non cash benefits; and

iv) An estimate of the sum total of variable payments arising from the remuneration policy proposed, as a function of degree of compliance with pre-set targets or benchmarks.

iii) Any other clauses covering hiring bonuses, as well as indemnities or 'golden parachutes' in the event of early termination of the contractual relation between Company and executive Director.

40. The Board should submit a report on the Directors' remuneration policy to the advisory vote of the General Shareholders' Meeting, as a separate point on the agenda. This report can be supplied to shareholders separately or in the manner each Company sees fit.

The report will focus on the remuneration policy the Board has approved for the current year, with reference, as the case may be, to the policy planned for future years. It will address all the points referred to in Recommendation 34, except those potentially entailing the disclosure of commercially sensitive information. It will also identify and explain the most significant changes in remuneration policy with respect to the previous year, with a global summary of how the policy was applied over the period in question.

The role of the Remuneration Committee in designing the policy should be reported to the Meeting, along with the identity of any external advisors engaged.

See section: B.1.16

Even though we cannot state that BME fully complies with this recommendation, the Company's remuneration policy is more detailed than this recommendation.

Annual Corporate Governance Report

The Board's remuneration policy is highly transparent as remuneration is set at the General Shareholders' Meeting as stipulated in articles 40 and 29 of the Articles of Association and the Board of Directors' Regulations, respectively.

In this regard and subsequent to a report by the Appointments and Remuneration Committee, the Board of Directors shall submit for proposal at the General Shareholders' Meeting issues regarding Directors' remuneration and even the remuneration for the Company's Chairman and Chief Executive Officer. The process by which Directors' remuneration is determined is described in section B.1.14 of this report.

Therefore, the Board of Directors has deemed that the above policy excuses the need to submit to a vote the remunerations policy approved by the Board of Directors subsequent to a report issued by the Appointments and Remuneration Committee.

Notwithstanding the above, since 2008, the Board of Directors, following approval from the Appointments and Remuneration Committee, and in compliance with article 29.3 of the Board of Directors' Regulations and Recommendation 40 of the Unified Good Governance Code, approves and makes available to its shareholders an annual report on its policy for Directors' remuneration.

41. The notes to the annual accounts should list individual Directors' remuneration in the year, including:

a) A breakdown of the compensation obtained by each Company Director, to include where appropriate:

- i) Participation and attendance fees and other fixed Director payments;
- ii) Additional compensation for acting as chairman or member of a Board committee;
- iii) Any payments made under profit-sharing or bonus schemes, and the reason for their accrual;
- iv) Contributions on the Director's behalf to defined-contribution pension plans, or any increase in the Director's vested rights in the case of contributions to defined-benefit schemes;

v) Any severance packages agreed or paid;

vi) Any compensation they receive as Directors of other companies in the group;

vii) The remuneration executive Directors receive in respect of their senior management posts;

viii) Any kind of compensation other than those listed above, of whatever nature and provenance within the group, especially when it may be accounted a related-party transaction or when its omission would detract from a true and fair view of the total remuneration received by the Director.

b) An individual breakdown of deliveries to Directors of shares, share options or other share-based instruments, itemised by:

i) Number of shares or options awarded in the year, and the terms set for their execution;

ii) Number of options exercised in the year, specifying the number of shares involved and the exercise price;

iii) Number of options outstanding at the annual close, specifying their price, date and other exercise conditions;

iv) Any change in the year in the exercise terms of previously awarded options.

c) Information on the relation in the year between the remuneration obtained by executive Directors and the Company's profits, or some other measure of enterprise results.

b) These committees should be formed exclusively of external Directors and have a minimum of three members. Executive Directors or senior officers may also attend meetings, for information purposes, at the Committees' invitation;

c) Committees should be chaired by an independent Director;

d) They may engage external advisors, when they feel this is necessary for the discharge of their duties;
